Midland Fire wants your feedback!

January 7, 2022 – The Town of Midland Fire Department (MFD) is creating a Fire Master Plan to guide operational improvements and ensure the optimization of services to our community, and to help develop this master plan, MFD have launched a survey looking for input from our valued residents.

“With our community expected to grow over the coming years, we want to ensure we are delivering the services our residents expect while also planning effectively for the future,” said Fire Chief Paul Ryan. “It’s important that residents get involved and help us identify areas of focus as we develop this new Fire Master Plan.”

MFD is working with Emergency Management & Training (EM&T), a consulting firm that has helped many fire departments develop master plans, assess their stations and review their services.

To ensure MFD continue to meet the needs of our growing community, all residents are encouraged to participate and have your say today!

To take the survey, please visit <https://www.surveymonkey.com/r/3JB6QXJ>.

The survey is open from January 7 to January 31, 2022.
