Midland Bay Landing Development Project Stopped

For Immediate Release

Midland, Ontario (January 25, 2023) The current Midland Bay Landing Development project has been stopped following notification from Georgian Communities that they would no longer be part of the project. Therefore, the public engagement sessions planned for February 4th and February 11th are cancelled.

Georgian Communities was selected as the preferred developer in July 2022 following an extensive developer selection process and were in the Exclusivity Period undertaking technical investigations and design development of the concept plans.

“The Town will take this opportunity to consider options for the redevelopment of the Midland Bay Landing property,” said Mayor Bill Gordon. “With the current project being stopped, it allows the Town to evaluate the financial impact, then consider reengaging developers and the community on the development of these premier waterfront lands into a beautiful, welcoming space for our residents and visitors.”

In the coming weeks the Town will begin discussions regarding the future of the redevelopment project and the Midland Bay Landing Development Corporation.

About Midland Bay Landing:

Midland Bay Landing is the transformation of the 40-acre contaminated waterfront property from its former industrial uses into a vibrant, mixed-use, pedestrian oriented and accessible neighbourhood to help revitalize Midland and its historic, recently revitalized Downtown and the Harbour.
