

NOTICE OF COMPLETION

MIDLAND MULTI-MODAL TRANSPORTATION MASTER PLAN

THE STUDY

The Town of Midland has completed the **Multi-Modal Transportation Master Plan (MTMP)**, a long-range strategic plan for the entirety of Midland that addresses existing challenges and support growth, along with policies to guide transportation and land use decisions. The MTMP has re-evaluated previously planned improvements, as well as considered and responded to changes in growth, both within the Town and in adjacent municipalities since that time. The purpose of this study is to create a town-wide transportation and active transportation plan that not only identifies improvements within the Town's urban areas, but also considers opportunities to integrate the Town's emerging growth areas within and beyond Midland in a manner that preserves the quality of life and character of the community.

THE PROCESS

The Midland MTMP was conducted in accordance with the master planning process following the requirements of Phases 1 and 2 of the Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011, and 2015), which is an approved process under the Ontario Environmental Assessment Act. The MTMP addresses need and justification at a broad level and recommended infrastructure projects will require further detailed studies as per the Municipal Class Environmental process.

THE COMPLETION

The MTMP has been prepared to document the planning and decision-making process undertaken for this study. Key recommendations of the MTMP were approved by Council on September 4, 2019, pending the 50-day public review period that commences with issuance of this Notice as well as an additional Public Information Centre (PIC) to be held on October 24, 2019.

The Midland MTMP is available for review online at www.midland.ca/tmp or in the Clerk's Department of the Town of Midland, 575 Dominion Avenue. Further information requests or comments can be directed to:
