

TOWN OF MIDLAND
WATER / WASTEWATER OPERATIONS

-  Zone 1 – May 2017
-  Zone 2 - June 2017
-  Zone 3 – June 2017
-  Zone 4 - July 2017
-  Zone 5 – August 2017

Notice of
**UNIDIRECTIONAL
WATERMAIN FLUSHING
PROGRAM**

REASONS FOR USING UNIDIRECTIONAL FLUSHING

1. To maintain and improve the town's water quality.
2. Flushing can improve water flow and pressure in the water distribution system.
3. Uses 40% less water than regular flushing programs, due to higher water velocities.
4. Reduces bacterial growth, restores disinfectant residual, and improves water colour.
5. A preventative maintenance program for the water valves and fire hydrants can occur in conjunction with the UDF program, resulting in overall cost savings to the town.
